Welcome to Your Test Instructions Page!

Before you begin your test, it's very important to take a few minutes to review these instructions to be sure you get the most from your online testing experience. Below you will find information about your specific test, followed by a set of general instructions on how to take your test online.

Grammar Practice 1

Test Instructions:

The English language can be very tricky when you are trying to learn the rules to perfect your grammar. The more practice you have to improve your mechanics and grammar, the better prepared you will be to read, write, and be understood effectively. This quiz is meant to help you do just that. However, don't necessarily think of this as a quiz, but rather as a practice worksheet—a way to maintain or enhance your grammar skills. Your score on this is not designed as a means of testing, but as a means of pinpointing the mechanics and grammar skills you have mastered and the skills that still need work.

For more instructions on using and taking this test online, please click the blue **"Instructions"** button found on the top of the screen within your exam.
